

INTERNSHIP PROJECT REPORT

NRTR

Nurturing Relationships Through Realtime-Data

Presented by:	Mojidra Mayur Prakashbhai
College:	GMIT (Aff. GTU)
Company:	L&T Technology Services Limited
Role:	Power Platform Developer

About the Company

 Company

L&T Technology Services Limited

 Industry

Engineering R&D

 Domain

Digital Engineering

 Location

Vadodara , Gujrat , India

LTTS specializes in A premier, global pure-play Engineering Research and Development (ER&D) services company

My Role & Responsibilities

Power Platform Developer — Intern

01

App Development

Built Power Apps canvas apps for project management (NRTR)

02

UI/UX Design

Designed responsive layouts for mobile, tablet & desktop

03

Data Integration

Connected app to SharePoint/Dataverse for real-time data

04

Feature Building

Developed modules: Project, WP, Task, Timesheet, Help

05

Theme & Responsive

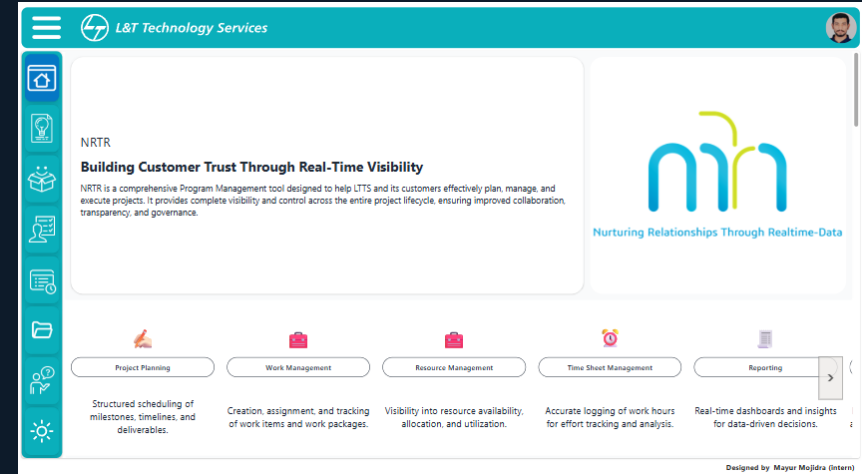

Implemented multi-theme support & responsive views

Project Overview

NRTR

Nurturing Relationships Through Realtime-Data

- Comprehensive Program Management Tool
- Built on Microsoft Power Apps (Canvas App)
- Helps LTTS & customers plan, manage & execute projects
- Real-time visibility across entire project lifecycle
- Ensures collaboration, transparency & governance

Key Modules & Features

Project Planning

Schedule milestones, timelines & deliverables

Work Management

Create, assign & track work items and packages

Resource Management

Monitor resource availability & utilization

Time Sheet

Log work hours for effort tracking & analysis

Reporting

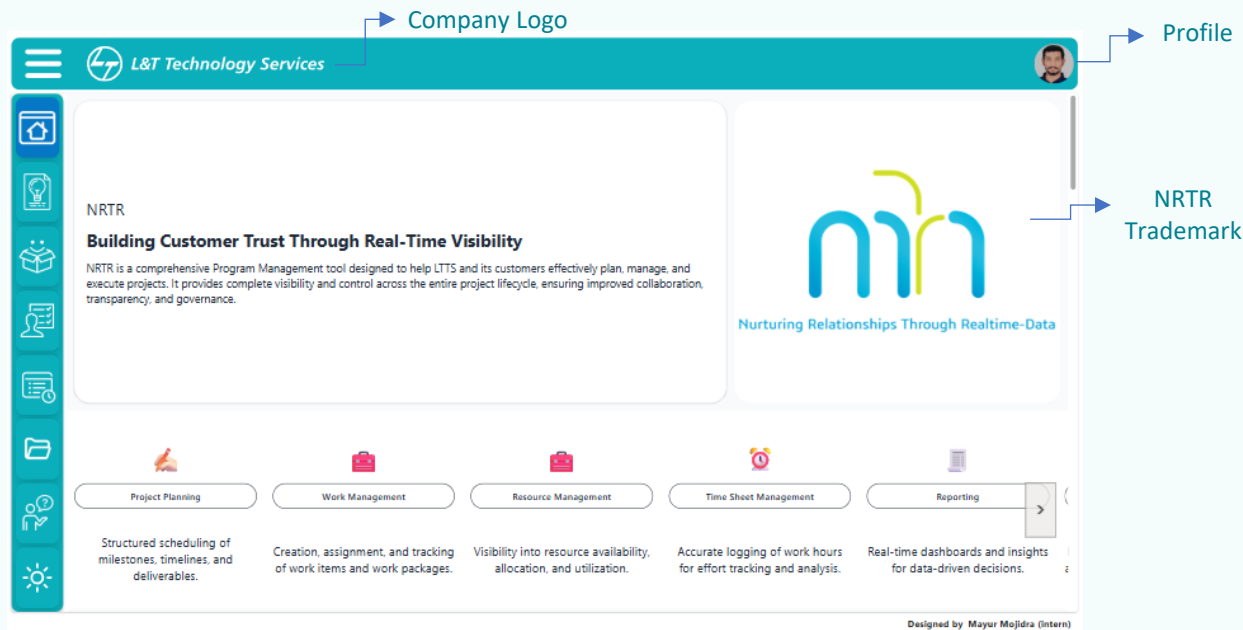

Real-time dashboards for data-driven decisions

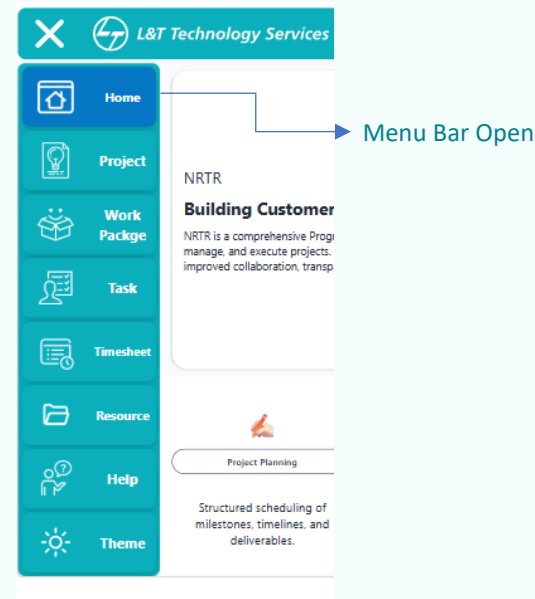

Risk & Issue Tracking

Detect, track & resolve risks proactively

Home Screen & Navigation

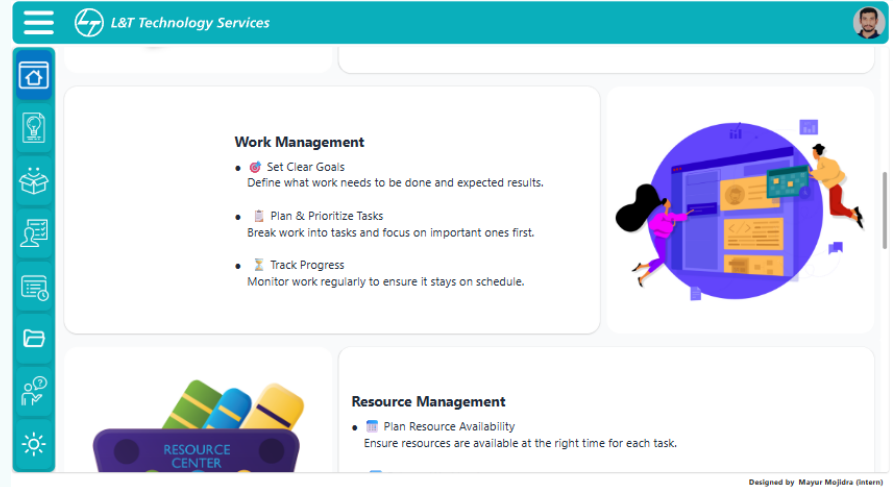

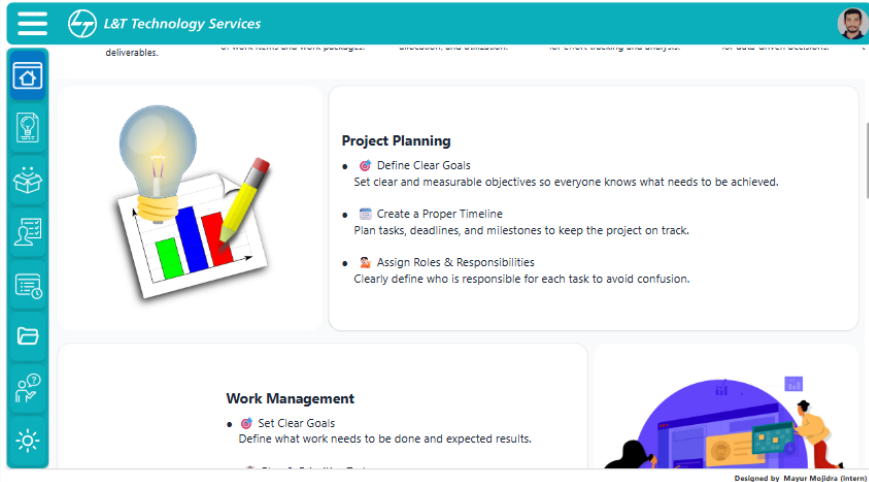

Home Dashboard

Task Management Module

Navigation

Task Dashboard

Excel File Upload

Navigation btn

Bulk Task Upload

- 4-step task creation: Business → Task → Execution → Metadata
- Bulk task upload via Excel template
- Dashboard with multi-column search & filter
- Go TO Task option for quick navigation

Timesheet & Help / Issue Tracker

The screenshot shows the 'Timesheet' section of the L&T Technology Services dashboard. It features a sidebar with navigation links: Home, Project, Work Package, Task, Timesheet (active), Resource, Help, and Theme. The main content area has three filter tabs: 'Time Sheet By Date', 'Time Sheet By Task I'd', and 'Time Sheet By Date & Task I'd'. Each tab contains input fields for 'Start Date' and 'End Date' with a calendar icon, and a 'Filter' button. Below the filters is a table with columns: ID, TaskID, MainCategory, SubCategory, TimeSheet..., Actual, and Billable. The table is currently empty, displaying a 'No items found.' message with a grid icon. The footer indicates 'Designed by Mayur Mojitra (Intern)'.

Timesheet Upload and Dash Board

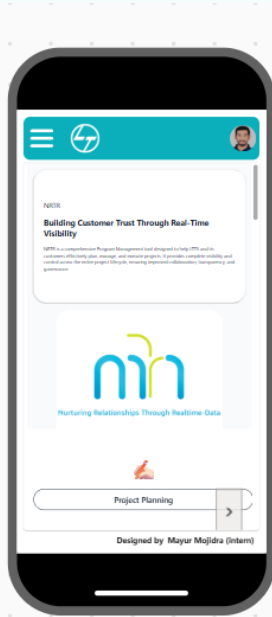

- Filter by Date, Task ID, or Both
- Columns: ID, TaskID, Category, Actual, Billable

The screenshot shows the 'Help / Issue Tracker' section of the L&T Technology Services dashboard. It features a sidebar with navigation links: Home, Project, Work Package, Task, Timesheet, Resource, Help (active), and Theme. The main content area has a header with a status message: 'Something wrong? Let us know!'. Below this is a form with fields for 'Module', 'Title', 'Description', 'Stage', 'UrgencyScale', and 'Attachments'. The 'Attachments' section shows a message 'There is nothing attached.' and a button to 'Attach file'. At the bottom, there are buttons for 'Raise Issue >', 'Issue Tracker >', 'Go To Track Issue', and 'Submit'. The footer indicates 'Designed by Mayur Mojitra (Intern)'.

Help / Issue Tracker

- Raise issue with Module, Title, Urgency & Attachments
- Issue Tracker dashboard with status & resolution tracking

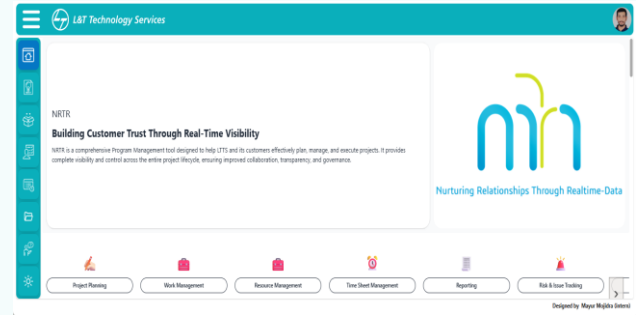

Responsive Design

Mobile View

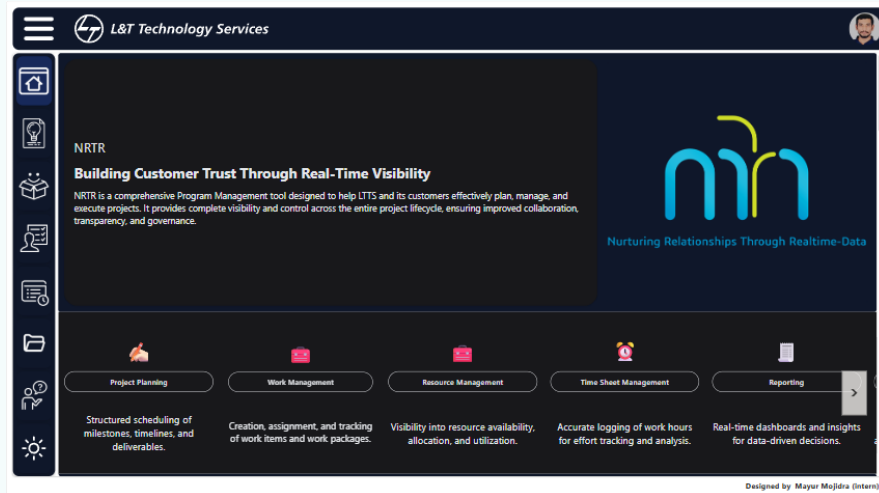

Tablet View

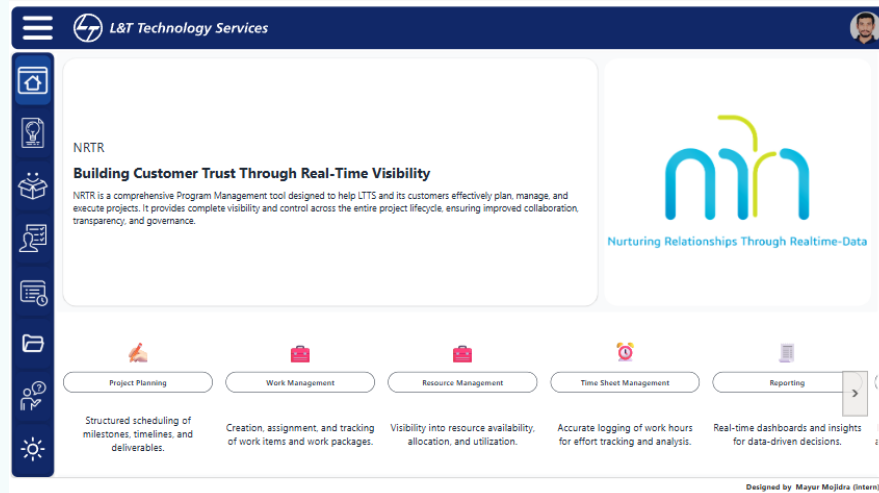

Desktop View

App is fully responsive — optimized for Mobile, Tablet & Desktop screen sizes

Multi-Theme Support

 Theme 2 — Dark

 Theme 3 — Navy / Dark

Users can switch between themes dynamically — each theme changes the app's entire color scheme

Technologies & Tools Used

Power Apps

Canvas App development

SharePoint

Data storage & lists

Power Automate

Workflow automation

Dataverse

Backend data platform

Microsoft 365

Platform ecosystem
